

Bacillus Coagulans, NutriBiome NPN 80066915

90 capsules, Probiotic Dietary Supplement, Stock No. 6109

Bacillus coagulans is a strain of friendly probiotic that is naturally heat-stable, so no refrigeration required. It can also more readily withstand the stomach's acidic environment, thereby providing better targeted support to the intestine and maintaining balance in the microbiome.

Did you know?

Probiotics, commonly called “friendly bacteria,” are live microorganisms that exert many beneficial health effects. They provide essential functions in the body and help maintain our overall health.

The normal, healthy human intestinal tract contains billions of microorganisms, collectively called flora, that live in a delicate balance. They break down our food into easily absorbable nutrients and help maintain our overall health. But, factors such as stress, environmental conditions, poor diet or use of antibiotics can affect the natural balance of friendly microbes.

NSP Advantage

100 capsules. Targeted and Shelf Stable Probiotic Supplement.

Ingredients: Medicinal Ingredients: Each capsule contains *Bacillus coagulans* (MTCC 5856) 1 billion cfu (70 mg). Non-medicinal Ingredients: Inulin, hypromellose, magnesium stearate and silicon dioxide.

Recommendation (adults): Take one capsule twice daily with food. If you are on antibiotic, take at least 2-3 hours before or later.

Risk Information: Consult a health care practitioner prior to use if you are pregnant or breastfeeding. If symptoms of digestive upset occur, worsen, or persist beyond 3 days, discontinue use and consult a health care practitioner. If you have fever, vomiting, bloody diarrhoea or severe abdominal pain, consult a health care practitioner prior to use. If you have an immune-compromised condition (e.g. AIDS, lymphoma, patients undergoing long-term corticosteroid treatment), do not use this product.

Features & Benefits

- Helps support intestinal/gastrointestinal health. Could promote a favourable gut flora.
- Source of probiotics.
