

PROFILE

of a CHAMPION

Maria Loewen

Maria's story is one of hope and blessings. Her journey, she explains, began with a family illness and little hope.

"My husband was suffering from severe pancreatitis, spending practically all his time at the hospital or appointments that brought little hope. We felt there was no choice but to look for an alternative. That's when I met an herbalist who was finally able to help my husband. Now he's a healthy hardworking man!" Maria says she feels so thankful and blessed to have been introduced to NSP and her sponsor. "Let me tell you, what a blessing it has been. And now I am able to help others achieve a happy, healthy life through NSP."

Why Nature's Sunshine?

"With NSP supplying a reliable product in a very competitive market, it was easy for me to promote NSP. They have a large variety of high quality herbs and supplements that I can offer to my family and clients."

Your 3 keys to success:

- 1) Educate myself and my downline.
- 2) Let my clients know I care about their health and their family's health.
- 3) Share testimonials of people's success...they are so powerful.

What's your ultimate goal?

"My ultimate goal is to help transform lives, as mine has been transformed. By helping my downline develop into Managers, I've currently just reached Silver Manager rank!"

Maria Loewen

How I grow my NSP business

"Being a reflexologist really allows me the opportunity to get to know my clients and spend one-on-one time with them. This personal contact opens up opportunities for me to discuss NSP products and my business. In addition, being an IN.FORM Coach, and putting my clients through the 13-week IN.FORM program, allows me to further educate them in NSP products and sign them up on the Sunshine Rewards program. Through education and the IN.FORM program I continue to recruit and build Managers.

"Just recently I opened my own retail/clinic which has been a success in bringing me new clientele."
