# SILVER SHIELD® DAILY PURIFYING CLEANSING GEL

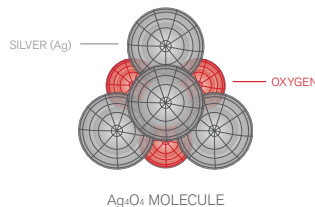

Our days are full of opportunities to pick up dirt and grime. Carry Silver Shield Daily Purifying Cleansing Gel everywhere you go. It helps cleanse, purify and moisturize.

## BENEFITS:

- Cleanses, purifies and moisturizes skin
- Uses fine particle-size silver colloids for maximum bioavailability
- Is non-toxic; poses no risk of heavy metal contamination
- Provides 20 ppm of bioavailable silver

## HOW IT WORKS

Silver Shield Daily Purifying Cleansing Gel is for recurrent daily use and has been shown to be an effective cleaning agent, promoting natural hydration and moisturizing the skin. Silver Shield is manufactured with Bioavailable Aqua Sol Technology, which utilizes only the finest particle-size silver to ensure maximum bioavailability and efficiency. Silver Shield Gel is made with food-grade ingredients, contains no alcohol and is safe for children.

## NSP ADVANTAGE

Aqua Sol Technology is a patented process that features a more stable and bioavailable silver particle. This particle is surrounded by a thin multivalent silver oxide coating built of thousands of  $Ag_4O_4$  molecules, creating a silver particle. This structure becomes much more stable and bioavailable through multiple modes of action. By utilizing an effective electrostatic charge, the stabilized nano-silver particle has the ability to steal multiple electrons, compared to ionic silvers that can only steal one.
