HOW IT WORKS

As an Herbal Leader Nature's Sunshine flipped the script on the Turmeric and Curcumin product offering. While most competing products deliver high levels of Turmeric and low levels of turmeric extract, Nature's Sunshine delivers Turmeric root and HIGHER levels of the antioxidant-rich turmeric extract.

Curcuminoids is the primary active ingredients obtained from the rhizomes of the yellow curry spice turmeric

(*Curcuma longa* L). Curcumin has been safely used for centuries in Indian Ayurvedic medicine. A potent antioxidant, curcumin supports a healthy inflammatory response and may help support joint, skin, brain and gut health as well as immune system function. As an added benefit we enhanced Turmeric Curcumin with Black pepper extract—a black pepper fruit extract from the *Piper nigrum* species, black pepper has been added to increase curcumin's absorption. Black pepper may also aid with some occasional digestive discomfort and has antioxidant properties.

RECOMMENDED USE

Take 2 Vegcaps daily with water.
