SHIELD YOURSELF!

NEW WITH 20 PPM!

SILVER SHIELD®

Powerful, broad-spectrum immune support*

The human body is constantly bombarded. Your body's immune system naturally puts up shields for protection. Exclusively from Nature's Sunshine, Silver Shield® with bioavailable Aqua Sol Technology offers safe and effective broad-spectrum immune support.

BENEFITS

- Offers broad-spectrum immune support
- Is composed of nano-size particles to ensure maximum bioavailability and potency
- Is non-toxic; poses no risk of heavy metal contamination
- Provides 20 ppm of pure silver (100 mcg per serving)

HISTORICAL USES

Silver has been used for thousands of years for its beneficial immune system effects. Ancient Phoenicians stored their drinking liquids in silver vessels to help deter spoilage. Pioneers put silver coins in their milk jugs to keep milk drinkable as they crossed the plains. World War I battle medics applied silver leaf to wounded soldiers. And today, the Swiss Army uses silver to help purify their water. Silver is even used in NASA clothing and on the space station!

WHAT'S AQUA SOL TECHNOLOGY?

Silver Shield with Aqua Sol Technology features pure silver particles suspended in pure water for powerful immune-system support. It is manufactured using a patented process with strict quality control to verify potency and purity. The result is fine nano silver particles with 99% bioavailability. Silver particles are processed

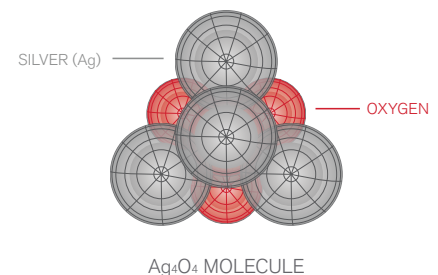

by the kidneys and are not known to negatively affect populations of beneficial bacteria in the colon.

NSP ADVANTAGE

Aqua Sol Technology is a patented process that features a more stable and bioavailable silver particle. This particle is surrounded by a thin multivalent silver oxide coating built of thousands of Ag_4O_4 molecules, creating a silver

particle. This structure becomes much more stable and bioavailable through multiple modes of action. By utilizing an effective

electrostatic charge, the stabilized nano-silver particle has the ability to steal multiple electrons, compared to ionic silvers that can only steal one. In addition, the Aqua Sol silver particles are safe and effective, as they are flushed from the body within 24-48 hours through natural processes.

RECOMMENDED USE

Take 1 teaspoon three times daily.

FREQUENTLY ASKED QUESTIONS (FAQ'S)

WHAT MAKES NATURE'S SUNSHINE SILVER SHIELD BETTER THAN OTHER SILVER PRODUCTS?

NSP's Silver Shield has bioavailable Aqua Sol technology. Silver Shield uses the ideal amount of silver at 20 ppm that offers broad-spectrum immune support. Many competitors use 10 ppm which may be less effective. Other competitors have 30-50 ppm which again may be effective for some and not ideal for others. Our product is at the ideal level to provide broad-range immune support in the most efficient way.

IS THE NEW 20 PPM PACKAGED IN GLASS OR PLASTIC BOTTLES?

The 6 oz. and the 16 oz. are both in the new high-grade BPA-free plastic bottles.

WHY DID NSP DECIDE TO USE A PLASTIC BOTTLE?

A few reasons: Larger glass bottles are not readily available. From a shipping perspective, the plastic bottles weigh less and will not break while in transit. We currently have a high rate of broken glass bottles.

IS THE CURRENT 4 OZ. GLASS BOTTLE STILL AVAILABLE FOR PURCHASE?

Yes. The 4 oz. product is still available for purchase in a glass bottle.

WILL THE 4 OZ. GLASS BOTTLE BE DISCONTINUED?

We currently do not have plans to discontinue the 4 oz. glass bottle.

ARE THERE ANY EFFECTS OF PLASTIC LEACHING OR CHEMICAL INTERACTIONS WITH THE SILVER?

No. Nature's Sunshine conducts numerous tests to ensure quality, safety and stability. Nature's Sunshine has been selling Silver Shield in plastic bottles for many years in some of our international markets. You can rest assured and have 100% confidence in the stability, purity and quality of the Silver Shield in these high grade BPA-free plastic bottles.
